

LEADERS IN THE FIELD

MODEL 3015
1025 TANK CAPACITY

MODEL 4015
1400 TANK CAPACITY

MODEL 4615
1775 TANK CAPACITY

ENGINEERED FOR ACCURACY. BUILT FOR RESULTS.

Blu-Jet[®] 15-Series liquid fertilizer applicators can elevate your yields and profit potential with durable construction and economical designs that your budget will love! Tank capacities range from 1,025 gallons to 1,775 gallons, and toolbar sizes are available from 25-row 30" down to 11-row 30" depending on model. The coulters feature 1,500 pounds of down pressure to cut through the toughest conditions, and both injection nozzles and knives are available. The 15-Series fertilizer applicators offer a wide range of options, so you can customize them to fit your needs. The 15-Series fertilizer applicators allow you to apply the right source of fertilizer right where it's needed, at the right time and with an accurate rate to maximize yields.
