LANDRUNNER**

**QUALITY,  
DURABILITY  
REAL RETURNS**

[BLUJETEQUIP.COM](http://BLUJETEQUIP.COM)

The Blu-Jet® lineup of anhydrous ammonia applicators feature high-quality workmanship, a durable design and will help you see a quick return on investment. The **AT6020** applicator is built for high-rate, high-acreage use and features toolbar widths up to 62.5' with a heavy-duty frame design. **LandRunner** models are available with a pull-type or 3-point hitch and feature an economical design that doesn't sacrifice performance. The **Legacy** applicator features a field-proven design and durable construction that is perfect for any size operation. All Blu-Jet NH<sub>3</sub> applicators feature Super 1200 coulters, edgebent shanks with spring-cushioned mounting, 3/4" injection knives and DiscCover sealers for the best in anhydrous ammonia application.

See your nearest Blu-Jet dealer today for complete details.
