## 54-Series Double-Auger Grain Carts

Models 1154 • 1354 • 1654

### WORKHORSE POWER WITH ADDED VERSATILITY!

When you need a grain cart with large carrying capacities, lightning fast unloading speeds and added unloading versatility, look to the Parker 54-Series lineup of double-auger grain carts. The double-auger design provides a low-profile tank, greater unloading speeds and enhanced cleanout, even in high-moisture grain.

DEALER IMPRINT  
HERE

- Adjustable vertical auger and two-way downspout for greater unloading versatility
- Capacities of 1100, 1300 and 1600 bushels with low-profile tank design
- Unload up to 850 bushels per minute to get back to the combine faster
- Choose from high-flotation single wheels and tires, walking tandem duals or tracks for the greatest flotation
