

# PREMIER SPRAYERS

• MODELS • TA2400 • TA1600 • TA1200

## SPRAY MORE. FILL LESS.

The Top Air Premier lineup of pull-type sprayers features tank capacities up to 2,400 gallons and boom widths up to 132 feet. This equates to more acres sprayed per day with less time filling and increased productivity. Plus, by using existing

horsepower on the farm, you won't break the bank when it's time to spray! Customize your sprayer to fit your needs by adding a run-dry, high-flow pump (std. on TA2400), auto-boom height control or steerable hitch.

 Spray Smarter. Grow Better. Find your nearest Top Air dealer listed below or visit [TopAirEquip.com](http://TopAirEquip.com) today.
