

DELIVER YOUR INVESTMENT *QUICKLY* AND *SAFELY*

SEED RUNNER®
BULK TANK CARRIER

SEED PRO®
BULK BOX CARRIER

Deliver your seed investment quickly and safely during the narrow planting window with a patented self-filling **Seed Runner®** or **Seed Pro®** seed tender! The Seed Runner bulk tank seed tender is available with a 500, 400, 375 or 275 seed unit carrying capacity, while the Seed Pro is available with a 4- or 2-box carrying capacity. Conveyor length is measured from top to bottom bearing and DXL-models feature a 24' long conveyor, XL-models feature a 21' conveyor and standard models feature an 18' long conveyor. The exclusively designed rubber conveyor belt features U-shaped cleats that are offset and integrally molded into the belt for unmatched durability. After countless hours of research and testing, it was proven that the U-shaped cleats increased carrying capacity while the offset design protected the seed as it moved through the conveyor tube. Bottom line, you'll protect your investment and fill your planter faster with an Unverferth seed tender.
