

LONG LASTING GRAIN HAULING VALUE

Unverferth **30-Series** high-capacity grain wagons will be making trips to town hauling your harvested crop long after others have found their permanent parking spot. These high-quality wagons are designed to be pulled fully loaded, in tandem and feature easy connectors for convenient linking. The one-piece, all-welded hopper features capacities of 750, 625 or 550 bushels to fit your operation's needs. Its steep-sloped sidewalls and graphite-coated interior unload a full hopper in 90 seconds or less. The unloading chute features an innovative latch system that holds the chute tight to prevent chatter when traveling down the road. The undercarriage features an Ultra-Steer chassis for a tighter turning radius front suspension and a rear torsion axle for stable towing.
