

FAST AND EASY *HANDLING*

Unverferth offers a complete lineup of **gravity box augers** and **conveyors**, drill and planter fill augers and conveyors, truck augers and pull-type conveyors. Augers can be equipped with steel, brush-tip or plastic flighting, while conveyors feature a PVC belt. Pull-type conveyors are equipped with a 5-ply rubber belt for maximum durability. Handle your bulk feed, seed, fertilizer or other bulk commodity with ease by utilizing an Unverferth auger or conveyor.

AUGERS

- Handle the most diverse types of materials
- 6"-diameter augers in 16' or 14' lengths
- Tube choice of ABS plastic or 16-gauge steel
- Unloading speed up to 8 bushels per minute with brush-tip flighting or 10 bushels per minute with plastic or steel flighting

CONVEYORS

- The perfect choice for seed handling
- 8"-wide cupped and cleated belt inside a 6" steel tube for maximum seed cushioning
- Dual levers for convenient control
- Unloading speed up to 12 bushels per minute
