

# RIP COMPACTION

## CONDITION YOUR *SEEDBED*

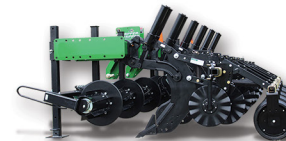

The **Ripper-Stripper®** tillage tool is the most customizable strip-till machine available. Choose from a lead coulter that clears a path for the shank or a cover crop roller with an 11" diameter drum that crimps and deflects residue away from the row. The deep-till shanks with shark-fin points and wear bars rip through compaction from 9" to 18" deep. Plus, you can choose from the widest variety of attachments to complete the tillage pass.
