

# FARM TO FARM *FIELD TO FIELD*

You've made a high-value investment in your grain platform or draper head and should be able to transport it with peace of mind. That's why Unverferth manufactures header transports with the highest quality materials, workmanship and the most standard features. All models feature patented tool-free convertible rest brackets that quickly adjust to fit the widest variety of grain platforms and row-crop heads. Standard features also include heavy-duty spindles, 2" tie-down straps and a LED light bar.

## Fieldrunner Header Transport

- Available in 48', 36', 30' and 25' lengths
- Dependable front-wheel steering for shorter road trips
