

PUT ALL YOUR HORSEPOWER TO WORK

IMPLEMENT CADDY
MODEL 500

IMPLEMENT CADDY
MODEL 700

Big-tractor horsepower doesn't do you any good if it can't be used for all your tillage needs. The Unverferth **implement caddy** features easy hookup to virtually all 3-point equipment, including the Zone-BUILDER®, Ripper-Stripper®, Ripper-Roller and Ripper-Bedder subsoilers, and their mounted tillage attachments.

- Dual wheels for greater flotation and transport stability
- Adjustable tongue height with single-tang hitch
- Standard transport chain
- Adjustable top link for easy implement leveling
- 3,000 psi hydraulic cylinders for quickly raising and lowering unit
- Choice of powder-coat red, green or black finish for optimum corrosion resistance
- Standard rear-mounted electrical connection for easily connecting transport lighting
- Rear hydraulic remote connection standard on model 700; optional on model 500

PUT IT ALL TO WORK WITH THE UNVERFERTH IMPLEMENT CADDY.
