

KEEP YOUR OPERATION MOVING FORWARD

20-SERIES
MODEL 420XL

INTRODUCING THE NEW LIMITED
MIDNIGHT
— EDITION —

The **20-Series Unverferth Seed Pro** bulk box carrier seed tender is built to help growers make the most of every minute during the tight planting window. Packed with advanced technology and more standard features than ever before, it delivers smoother performance, more responsive control and greater overall efficiency in the field. From its intelligent CAN bus communication system and electronically controlled Honda® engine to its user-friendly standard 5-function wireless remote and precision conveyor design, the 20-Series is engineered to handle seed with exceptional care while maximizing productivity.

Additional new standard features include an auto-tension conveyor system, engine auto-throttle, LED work lights and a new DG3520 scale package on model 420XL. For those looking to make a statement, the Midnight Edition 420XL combines premium styling with its midnight metallic gray paint scheme and fully loaded performance—continuing the Seed Pro legacy with innovation you can see and reliability you can count on.

Built to do more than move seed—built to keep your operation moving forward.
