

CAPACITY, SPEED & AUGER ADJUSTABILITY!

If you're looking for a high-capacity grain cart with fast unloading speeds and an adjustable vertical auger that gives you greater unloading flexibility, look to the Unverferth lineup of dual-auger grain carts. Models 2020, 1620, 1320 and 1120 feature tank capacities from 2,000 to 1,100 bushels and combine a horizontal floor auger with a pivoting vertical auger for a lower profile and fast unloading speeds. All

models feature a standard roll-tarp to protect your harvested crop and rubber-cushioned tongue suspension for a smoother ride. Choose from single wheels and tires, walking tandem duals, 36" wide tracks or the patented 42" Equalizer tracks. Accessories include the UHarvest Pro scale and data management system, traditional scales, camera and 5-function joystick control.

DEALER IMPRINT HERE

➤ If you're looking for a grain cart that can handle your high-capacity, high-speed operation, look to the Unverferth 20-Series lineup of dual-auger grain carts. For more information, visit umequip.com or see your nearest dealer today.
