

# BUILD THE PERFECT SEEDBED

You'll save time and money by tilling, leveling and conditioning in a single pass with the **Perfecta**® field cultivator. This versatile tool is available in working widths from 3' 6" to 39' 6" and is ideal for row crops, orchards, vineyards and arena grooming. The lead S-tines

cultivate from 2" to 6" deep while the tool-free adjustable leveling bar knocks down ridges and breaks clods. Trailing soil conditioning options include a **Rolling Harrow**® single basket, double basket or drum roller to make a ready-to-plant seedbed.
