

# TRUSTED TO DELIVER FOR MORE THAN A DECADE!

**Model 4955DXL**

**Model 3755XL**

**Model 3955XL**

The Seed Runner® bulk tank seed tender has been committed to delivering your valuable seed investment quickly and safely for more than a decade. From the industry's first self-filling design to the exclusive conveyor belt on the 55-Series, the Seed Runner bulk tank seed tender continues as the leading seed delivery partner.

- Patented self-filling conveyor pivots 180° for easy filling
- Exclusive rubber belt design carries seed quickly and safely
- Choose a 500, 400, 375 or 275 seed unit tank capacity
- Conveyor lengths up to 24' and are measured from top to bottom bearing
- Low-profile tank design with viewing windows & fill-lights
- Undercarriage features electric brakes on all axles and is available with a bumper-pull or gooseneck hitch
- Accessories include scales, wireless remotes, talc applicator & L.E.D. work lights
